

# PARTNERS FOR WORLD PEACE

A GLOBAL NETWORK FOR PEACE

*Support Uganda Maharishi Girls' School*

Your help is needed to provide desks for these students!

Dear Folks,

In 2007 UNICEF estimated that in some parts of Uganda as many as 80% of school age children had not ever been to school. Not even for a day!

Since 2009 Seeds of Heaven has been helping to improve that number. Pictured above are the students at Maharishi Secondary School for Girls (MSSG) where we have provided funds for the land, building, curriculum, meals and staff salaries to get this school off the ground and keep it running. We focus on the education of girls because educated girls grow up to educate their own children, creating a ripple effect that lasts for generations.

MSSG is small but expanding, and has built an excellent reputation for academic excellence with the local population. Their choir is often invited to perform at local and regional events. [\(Click here to see a video of the MSSG choir.\)](#)

Most of the MSSG students board at the school, but others walk an hour each way in order to attend. Won't you join with Partners for World Peace and Seeds of Heaven? Can you help us provide a place for these dedicated students to study when they arrive at school?

**The simple desks shown in this image will each seat 2 students. Funds are being raised now and just \$1000 will provide desk space for 80 girls.**

**Any amount, large or small, will help, and the need is now.**
